The sweetest things which we can give
Our dearest friends on earth
Are flowers, to show our love doth live
And we esteem their worth.

Sow Peace, and reap its harvest bright,
Sow Sunshine on the rock and moor
And find a harvest home of light.

A. T. Cook, at Six Years of Age.

Personal Greeting.

Established 1870.

My Trade Mark.

Dear Friends:—The very best thing about my seed business—what I value most—is the long list of good friends I have made. A few of the kind letters from my customers are given in this book. I only wish there was room to print hundreds more. I don't know one of them personally, but they are fast friends of mine and helping on the success of my seed business. No words of mine can ever express my gratitude to you all for your kindness.

A Farmer's Son who Followed the Plow.

I am a Farmer's Son. I grew up on the farm—far from railroads, and the cities maddening crowds. My Ancestors were Quakers—all Farmers from time immemorial. I grew up among Farmers and Gardeners in fertile Dutchess Co. Early indeed did I learn this truth—that “men do not gather figs of thistles,” and that high grade, **CAREFULLY SELECTED** seeds were absolutely essential for success.

This Kind Only

have I been growing and selling for over 25 years. The Seed business is my sole life's work, and I am sure I understand my business. My heart is in sympathy with honest planters everywhere. I personally attend to your orders, and read all your letters. I have personally selected everything in this catalog—for your best success and profit.

I am not a City Seedsman

whose business is done by disinterested clerks who neither know or care anything about gardening. I do not charge big prices to meet the enormous expense of business done in a city. The tremendous cost of bulky, flashy catalogs, and advertising is all saved for you. 'Tis for this I can give **YOU** more and better seeds, far better discounts, and Premiums of such great value they always excite wonder and astonishment.

Best of Mailing Facilities.

I am situated on the banks of the beautiful Hudson River—right among the most expert Farmers and Gardeners. ~~Five~~ Five mails each way every day.

Please send me Your Photo

when you send in your order, or photos of your family, children, home, garden, stock, scenery around you, etc. You may be sure I will return the favor at once. I feel deeply interested in all my customers—I cannot tell you how much. I carefully preserve every photograph—treasuring them very highly. ~~Be~~ Be sure and write your name and address on back of every one, and later I may remember you again with something nice. Here is a new engraving which shows how your seedsman looks at the present time. With thanks and best wishes,
A. T. COOK. Hyde Park, N. Y.

Your Friend A. T. Cook

Dear Friends:—One word more. While I am pleased to sell my seeds, and give premiums to my worthy customers and club-agents, I desire more—that I may induce the young to shun as a deadly viper all intoxicants and tobacco; and to lead a happier, better and longer life. Your Friend, A. T. COOK. Hyde Park, N. Y.

Questions Answered, Hints to Club Agents, Etc.

DEAR FRIENDS. THIS CATALOG Contains All Particulars in regard to my Seed Business. Every question suggested in my 25 years experience is answered and made plain. Read my Catalog and you can make no mistake; so go right ahead and send me your own—or a Club order, and select the Premium you wish, or if you prefer discount deduct one-third for your share. This big discount applies to everything offered.

PLEASE Order Early. This is VERY Important.

I AM A SPECIALIST. I do not catalog or sell the hundreds of poor and worthless sorts. It would be folly to grow them. My Seeds are high grade—tried and true, all gilt edge varieties (incomparably better than those usually offered) all in large packets, with directions for planting. I send valuable "Extras" always my selection free with every order. My Selected Seeds are NEVER sold in bulk.

MY SEEDS are tested and known to be extra quality. They will grow. If any fail to please I gladly replace free. I want you satisfied. No Seeds are ever returned. I have no half size packets. All prices are rock-bottom. I KNOW you cannot do as well elsewhere. Many have tried it—but are glad to come back.

MY PREMIUMS or Discounts are on Everything. You can take your choice. If Premiums—full catalog price must be paid. If Discount is preferred—deduct one-third. If no Premium is ordered—Discount taken. I enclose a PREMIUM COUPON good toward any Premium. Do not lose them.

I NEVER SELL Premiums—but give them for orders. They are for the sole benefit of my Customers and Club Agents. Every one is EXTRA quality—good as gold (some ARE gold.) They cost you absolutely nothing. Dear Friends—I only ask in return that you show them and my offers to your friends.

NO TOBACCO Seed sold. It is the Devil's own weed. I do not believe it right to grow the vile stuff, to use it or sell it. It leads to drink and kindred evils. Millions of good boys have been ruined by it—their bodies dwarfed, and bright intellect stupefied and deadened. God never gave a human life to be polluted in this way. Boys, DON'T begin. Don't be a slave.

REMITTANCE MUST accompany each and every order. These are my ONLY TERMS. I keep no accounts. I NEVER sell on credit, or commission, or C. O. D. Don't ask it for it is an "Old Fogey" plan. No one can give you half as good bargains as I do any such expensive way. If you have no money—get a friend to advance some for a few days.

LITTLE THINGS. Sign your name and address to every order. I have orders I cannot fill because I cannot GUESS where they go. Write plainly with ink. It may save mistakes. Don't cut up your catalog; they cost money. Give the extra one to your friend. I would gladly do as much for you. Three packets for 25 cts. may be ordered of any 10c. variety—or 6 Pkts for 25c. of any 5c. variety. Club Agents be sure and mention this when taking orders. Please send for more catalogs and circulars if you can use them.

MISTAKES. With all my care I sometimes make mistakes; so does every one. I earnestly desire to correct every one here in this life—for I can never return to do it. If everything is not right please do me the kindness to write and explain—pleasantly if you can, but write anyway. I don't want you dissatisfied.

ORDERS FILLED PROMPTLY. This is my "hobby." There is no delay here. Sometimes there is a few days delay in the mails. Don't be in too much haste to complain. Wait a little, and before you write ask your Postmaster to look well for your package, as they are often too large for the boxes, and may be laid one side and overlooked. If necessary to write, be sure and state WHAT you ordered, WHEN, also AMOUNT, and in WHAT WAY you remitted, so it can be traced.

ALL CLUB ORDERS are sent direct to Agents. Put YOUR name and address ONLY on the order to save mistakes. [Should you wish part mailed to distant Postoffice, write such orders, name and address, each on A SEPARATE SHEET.] Please make club-orders large as possible. A HINT. Many Club Agents take eggs, etc., in payment when parties have no money—and thus largely increase their orders. These are readily sold for cash at any grocery store. Try it.

TO CANADA (and Foreign) Customers. I have a host of Canada friends who have found my extremely early, hardy varieties admirably suited to their short seasons—producing the most bountiful crops. I send everything fully prepaid, (except big Freight Premiums) but do not pay duty which is sometimes required on some of the goods. I always add Extras to pay this. Remit by Money Order, Bills or Silver. No stamps taken.

Uses my Temperance and Cheer Post Cards in His Illustrated Lectures.

Dear Friend Cook:—I have always looked upon the greetings in your Seed Catalog as being full of pure thoughts and practical advice, but your beautiful Cards surely "cap the climax."

Your efforts in producing Original Post Cards, appealing to the eye as well as to the mind, is worthy of the highest commendation.

I never before found Post Cards of such intrinsic value. They will instill lessons of temperance and virtue in the young—and be a source of untold comfort and hope to the aged.

Every Campaign for Temperance should use your effective Temperance Post Cards liberally. Few things—if any would contribute so much to the good of the cause. I have photographed many of them on slides, for my Illustrated Lectures and thousands upon thousands have been delighted with them.

Sincerely Yours,
Conrad H. Palmateer, Brooklyn, N. Y.

EARLY LARGE PURPLE EGG PLANT.

BEST IN THE WORLD.

It is with much pleasure I call the attention of my friends to this greatly improved vegetable. No one should fail to grow it. It is a marked improvement over other sorts in quality, size, and great beauty.

Plants are low, stocky, branching, free from spines. Very early, and one of the easiest and surest of growers; very productive—plants producing 5 to 10 immense fruits each. Every one—and especially those who have never grown Egg Plant should try this variety. Pkt. 10c. 3 for 25c.

BOYS AND GIRLS

are among my most successful club-raisers. They always do well if they try. I sent them over 1,000 of my beautiful watches last year, besides thousands of other premiums to their great delight.

Parents everywhere should encourage their children to get up clubs for nothing could benefit them more than such practical business lessons. Give them your order to start with.

Please show above to boys and girls everywhere.

THE EARLIEST TOMATO IN THE WORLD

I had the finest tomatoes from your seed I ever saw. One Monster Ignotum weighed two pounds and 14 ounces. H. B. Wallis, Columbia Co. Ark.

Mammoth Ignotum Tomato.

All should plant the new Ignotum Tomato. A "priceless paragon" in the Tomato line. The earliest extra LARGE tomato. The most valuable large tomato ever introduced. It will wipe out fifty old sorts at a sweep. Bright red color, always smooth and solid, uniformly LARGE size. Why grow a poor sort when you can have such a variety as this? Beware of cheap Tomato seed which is often the vile product of waste from Canning Factories. My seed is carefully grown and selected. Packet 10 cts. 3 for 25 cts.

The Ignotum Tomato is best we ever had. I did not think it could equal your description—but a trial proves it really does.

John Erwin, Harrison Co. Ohio.

From a careful test of 45 different varieties I find the Ignotum the best of all.

J. Gregory, Essex Co. Mass.

A 9 year old Club Raiser.

Mr. A. T. Cook:—I am very much pleased with my watches. I gave one to brother. I am only 9 years old and got up my \$6.00 club in one day. Any boy or girl can have a nice watch if they only try. I will get up a much larger club next year. Papa is much pleased with his seeds. J. Lent, Hopewell, N.Y.

Extra Early Purple Top Milan Turnip.

The earliest in cultivation, adapted to spring or fall. It is fully one week earlier than any other sort, and of superior quality. The bulb is flat, medium size, smooth, with a bright purple top; leaves few. The pure ivory-white flesh is of the choicest quality, solid, and fine grained. Very mild and sweet. A good keeper. Of great value to all private and market gardens. Pkt. 10c.

Boys, You Can Make Lots of Money Growing Veg. Plants.

I know you can for I used to do it myself. I have sold over \$75.00 worth of Celery plants alone to my neighbors in a single season. Cabbage, Tomato and Celery plants sell best. Pepper, Cauliflower, Lettuce and Egg Plant sell good too. Asparagus plants always sell well and bring big prices. (Pansy Plants ditto.)

You can soon build up a very profitable business in plants if you try, that will increase from year to year. There is everywhere a good demand at paying prices. Plant a dozen pkts. of above varieties and fill up your pocket-book.

After you have your early beds all made and planted, and have sent in your club for Cook's seeds, you may

Is Your Name Cook?

"We may live without poets, music and art,
We may live without conscience, and live without heart;
We may live without friends, we may live without books,
But civilized man cannot live without Cooks."

I much desire the name and address of one person in each family in the United States by the name of "Cook." Somehow it seems to me that all Cooks especially should know of my bargains in seeds and premiums. Please send the names (one only in each family) and oblige, Your Seedsman—Cook.

Golden Tankard Mangel-Wurtzel Beet.

This is decidedly the finest mangel in cultivation, and best for dairy use. Of very large size, clean and handsome, easily pulled as it grows two-thirds out of the ground; will bear close planting. The flesh is rich golden yellow, exceedingly nutritious. It is early, hardy, and a very heavy cropper. The Golden Tankard has quickly taken the lead of all other varieties. It contains a large percentage of sugar and is much relished by milch cows and sheep. One of the best of keepers. Farmers should give root crops more attention. The wonderful results of feeding roots are plainly seen in the health and condition of the animals, and in the greatly increased yield of milk and rich, golden butter in cows. Do not miss planting a good size patch. It will be dollars in your pocket.

Selected seeds in LARGE PACKETS 5 cts. each, 6 for 25 cts.

Improved Purple Top Yellow Rutabaga.

This variety cannot be too highly recommended, and no sort will produce such handsomely formed roots, or greater yield. It is of the choicest quality, and full of nourishment; very solid, of a beautiful orange color, with a handsome purple top. Will keep all winter and even into the following summer. It is the result of many years of careful selection.

THE GRANDEST VARIETY IN CULTIVATION. Packet 5 cts. 6 for 25 cts.

NEW EARLY CHAMPION PEANUT.

This mammoth new Extra Early Peanut is the crowning triumph of a careful Specialist, and in size, quality and yield, will far surpass any other sort. It is a surprising yielder, having produced 100 bushels per acre.

It is so early and such a robust grower that fair crops have been harvested even in Vermont and Canada. Don't fail to try it—and every boy and girl should have a bed of Peanuts in their garden. Full directions for planting etc., on every packet. Pkt. 10 cts. 3 for 25c.

JAPANESE HOP, NEW VARIEGATED.

A grand and charming climber, growing 20 to 25 feet in a few weeks. Its immense leaves—6 to 7 inches across—are extremely dense and beautifully marked and variegated with white, yellowish green, and dark green. Not injured by insect or heat. Vine is very ornamental, and retains its beauty until frost.

This vine is one of the hardest of plants, growing vigorously in any situation. Do not miss this beautiful vine. Selected Seed, Large Pkt. 10 cts.

A gem among radishes. It has won golden opinions in all sections of the country. The illustration is perfect from nature, and will give some idea of their great beauty. It is absolutely the earliest radish in cultivation; their shape is perfectly globular, with rich, deep scarlet top; equally desirable for the market or home garden. My sales of this famous variety double every year. No other radish can compare with it for earliness. It is very tender, and of extra quality. Packet 10 cts. 3 for 25 cts.

The Famous New Faxon Squash.

This new and distinct variety is very early, of medium size, unusually productive, and of the best possible quality. They cook dry, sweet and rich whether ripe or green—are an excellent keeper, thus supplying the table with this delicacy during three seasons—summer, fall and winter. Some Faxons are pale yellow, while others are green, mottled, etc., in fact it is

—BY A. I. ROOT.—

TEMPERANCE, PURITY, AND GODLINESS.

Our old friend A. T. Cook, of Hyde Park, N. Y., sends out a nice catalog of garden seeds, etc., and actually takes space on its crowded pages to plead for temperance, purity, and godliness. It is refreshing to find a seed catalog that not only refuses to sell tobacco seed, nor anything else that, in his opinion, will not be a real substantial benefit to his customers, but uses its valuable space to remonstrate with the boys on commencing to use tobacco. Brief exhortations for righteousness are scattered all through its pages.

THE PODS are very large and long—fully 8 to 10 inches in length, entirely stringless, plump, round, and almost "solid meat," cooking meltingly tender, and of superb flavor.

EVERY STATE in the Union—as well as Canada sends words of praise for these enormously productive beans. Every lover of Delicious Beans should have a bountiful supply.

World Famous Prizetaker Onion.

ITS MILDNESS OF FLAVOR AND TENDERNESS ARE UNEXCELLED EVEN BY BERMUDA VARIETIES.

Without exception the grandest variety of yellow globe onion for our American climate. It is the largest, handsomest, finest flavored, and in every way the best. It is admittedly the largest of all; samples have been grown to the enormous weight of

5 Pounds Each.

With good care it produces wonderful crops everywhere; one reports "over 1200 bushels per acre," another "I grew 180 bushels on exactly one-sixth of an acre."

**Excels in Yield,
Excels in Size,
Excels in Quality,
Excels in Beauty.**

The Prizetaker is easily grown, ripens up hard and firm, is a good keeper, and always brings an extra price. It is certainly a wonder, and nothing short of an actual trial will convey an idea of its great value. Don't miss it. Remember my seed is American grown, carefully selected, and pure. Beware of cheap onion seed. Per Packet 10 cts. 3 for 25c. 12 for \$1.00.

Westfield, N. J. Feb. 13th. 1903.

My Dear A(ways) T(rue) Cook. Your Honest Catalog has come again. Every year adds to my faith in Cook's seeds.

Those Vegetable Peaches, Domestic Coffee, and Cinnamon Vines were more wonderful, more pleasing, and more fascinating than ever.

The Cinnamon Vine was the marvel of the city; and the peaches and coffee not only gave large crops but attracted the attention of the whole section. All other seeds did well.

The Perfection Parsnips, which came to my table for dinner to-day deserve especial mention. In more than a quarter-century's experience with experimental gardens, nothing in the way of seeds has ever pleased me more, and if it will do you any good you can say that Cook, and his seeds are guaranteed by me.

No Other Cabbage Can Compare.

Golden Hill, Dorchester Co., Md. May 27th, 1905.

Mr. A. T. Cook:—Your Short Stem Drumhead Cabbage is the best I ever raised. Heads enormous size, solid and hard. I have found no other cabbage to compare with it. John A. Abbott,

Best of All—a Wonderful Seller.

F. B. Hall, Lincoln Co., Maine, writes:—I raised 10 tons of Short Stems from 1,500 plants. Every seed grows. This cabbage is best of all, and a wonderful seller.

Almost Thunderstruck.

Dr. J. M. Ashley, of Texas writes:—Oh, goodness! what cabbage I did make from your Short Stem Drumhead: all that saw them were almost thunderstruck.

Cabbage and Cauliflower were Wonders

Mrs. A. M. Troffy, Burnside, Canada:—We never had better vegetables than we grew from your seeds. Our Short Stem Cabbage were immense. The Snowball Cauliflower heads were as large as a good sized milk pan. They were a wonder to all.

NEW DOMESTIC COFFEE SEED.

This makes a delicious, nourishing drink, to take the place of injurious coffee. It is a pure food drink that gives health and great strength to young and old. By all odds the best coffee substitute ever discovered. It has the rich, deep brown color of old Java. Thousands pronounce it as good as the best store coffee. One of the hardiest, easiest raised, and most productive of all

plants. See Photo showing its amazing productiveness. These grounds suffer untold injury from store coffee. Better grow the new kind at one-tenth its cost, and save your health—and money—\$10. to \$20. or more every year. It is as easily raised as corn or beans, and does well on all soils. You can raise all your own coffee at a nominal price. Plant a liberal quantity.

Besides its great value for coffee—it is a splendid poultry food and a GREAT egg producer. It will put money in your pocket. The Experimental Stations report that it has MORE THAN DOUBLE the feeding value of either corn or wheat.

Full directions on every packet. Prepare like other

coffee. You will be delighted. My seed is genuine and very distinct; is extra early, sure to ripen even in Canada. Beware of spurious seed, as much of it is offered. Buy at Headquarters—at following low prices.

Large Packet 10 cts. 3 for 25c. 12 for \$1.00. 36 pkts. with reliable watch, or Stereoscope and 25 lovely colored Views—(or any \$3.00 Prem.) all prepaid for \$3.00.

The noted Author, T. Greiner says:—I had rather use the NEW DOMESTIC COFFEE than the real article. It is very pleasing to my taste, and contains true nourishment. I will use it right along.

R. E. Green, Mgr. Boise Irrigation Co. of Idaho writes:—I am much pleased with your Domestic Coffee. It is immeasurably superior to the average coffee that people use. It makes a drink fit at least for the lesser Gods. I enclose order for 200 packets.

Margaret Clark, Noble Co. Ohio, writes:—It is the nearest the genuine coffee of anything I ever tried, and is an enormous yielder. I am more than pleased with it. I have fooled many a visitor who supposed they were drinking real coffee.

From Prof. W. H. MORSE, M. D., F. B. S. Sc.

Mr. A. T. Cook, Dear Sir:—This is to certify that your new Domestic Coffee, upon being tested in the laboratory, evinces a highly nutritious character, a rich flavor, and a remarkably pleasant taste. It is a satisfying drink, fitted to sustain life. Does not fatigue the nerves or cause an unnatural influx of blood to the brain. The new Domestic Coffee Seed should command large favor. Willard H. Morse, Consulting Chemist. The Sanatological Bureau, Westfield N. J.

NEW BANANA MUSK-MELON—Grows Over 2 Feet Long.

This curious new variety originated with one of our best growers in South Jersey, and is pronounced by him the most profitable variety he has ever grown. He realized an average of forty

P. Bliss, Lake Co. Mich. writes:—Mr. A. T. Cook. Your Melons are magnificent; I grew hundreds of luscious ones. The Banana's were 28 inches long and 6 inches in diameter. I want your seeds again, and all our nabors who saw our garden want them also. Please send several catalogs.

cents each for his entire crop, as they were eagerly sought after in the Philadelphia markets on account of their great oddity of shape and appearance. They look and smell like overgrown bananas. They grow from 20 inches to 2 feet long, are very productive, with deep yellow flesh, by many preferred to any other variety. They have a remarkable and delicious fragrance, one melon will scent the house. A great curiosity, and sure to attract attention. Packet 5 cts., 6 for 25 cts.

The Banana Musk-melon is one of the best I ever raised. Your Cabbage exceeded all expectations—the finest I ever grew. The King of Mammoth Pumpkin is certainly a wonder. All your seeds were just fine." C. B. Spangler Napoleon, O.

NEW PROLIFIC TREE BEAN.

A new and valuable variety, and by far the most prolific dwarf bean known; growing about twenty inches

in height, branching out in all directions, bearing its pods in marvelous profusion, and so high that they do not touch the ground, enabling it to stand a wet spell without injury. They often yield one hundred bushels to the acre, and a single plant has produced the enormous number of 399 full sized pods. Plant in rows 3 feet wide and 12 inches apart in the row, one bean in the hill. Do not crowd them. They are a shell bean

for winter, pure white in color, and a prodigious bearer. Extremely profitable. They are of fine flavor. Packet 10 cts., 3 for 25 cts.

ROBERT SMITH, York Co., Maine, writes:—Your New Prolific Tree Beans outyield anything I ever saw, and I must have some more.

D. K. BEAR, Middlesex Co., Mass., writes:—The Prolific Tree Beans produced the biggest yield I ever saw or heard of: 37 plants produced 8 quarts good measure. I shall plant a large piece this year.

Mammoth Salsify, or Oyster Plant.

A vegetable that is sure to be called for where it is once introduced. It is a good substitute for oysters, being very wholesome and nutritious. The roots are either boiled or mashed, and made into fritters, in which form they are delicious. For an oyster stew, cut the roots into small pieces, cook until tender, then add the other ingredients same as for oysters. The roots are perfectly hardy; may remain in the ground all winter. No garden should be without this splendid vegetable. Packet 5 cts., 6 for 25 cts.

From EDWARD BEARD, Ecomy, Ind. We have used thy seeds for three or four years and will say that we have never dealt with any seedsmen that sent out such good seed, so neatly packed, and in such liberal quantity.

Extra Curled Cress or Peppergrass.

An appetizing relish of fresh piquant taste, often added to lettuce and other vegetables for variety.

It is very quick growing, dwarf and compact; leaves finely cut and feathery. Ornamental, caisp, and pungent; very refreshing. Packet 5 cts., 6 for 25c.

New Winter Pineapple Muskmelon.

The Winter Pineapple differs from all other muskmelons in shape and appearance of the fruit and its wonderful keeping qualities. The melons weigh from 8 to 12 lbs. each. It is a most valuable novelty. These

splendid melons do not ripen on the vines like other muskmelons, but have to be picked in a green state, before frost, laid away in a cool, dry place where they will keep sound and sweet for several months. When wanted for use bring them in a warm room, where they will ripen in a few days and be ready to eat.

The flesh is unusually thick, solid, and melting, a light green color and has the most delightful flavor imaginable, being rich, spicy, and delicious, with an agreeable pineapple taste.

The Artist, (Mr. Blanc, of Phila.) who has made engravings of, and tasted nearly all the new melons introduced in the past ten years, says "Winter Pineapple is decidedly the finest flavored muskmelon I have ever eaten."

Large Packet 10 cts. 3 for 25 cts.

Everblooming Petunias.

ALSO AN ELEGANT POT PLANT.

I desire to call attention to these entrancingly lovely flowers. They are a superb mixture of wondrous beauty—over 40 varieties. They comprise an endless assortment of colors, shades, and markings. No one who loves flowers should fail to plant them. Pkt. 10c. 3 for 25c.

Mr. A. T. Cook:—Your Petunias were a perfect delight all the summer long. The blossoms were immense, and of the most beautiful tints. In the fall they were taken into the house, and they have bloomed continuously all winter. Mrs. C. C. ALFORD, Mass.

FLOWERS.

"God might have made the earth bring Enough for great and small, [forth The oak-tree and the cedar-tree, Without a flower at all.

He might have made enough, enough For every want of ours, And yet have made no flowers.

Our outward life requires them not, Then wherefore had they birth? To minister delight to man, To beautify the earth!

To comfort man—to whisper hope When'er his faith is dim, For He who careth for the flowers Will care much more for him!

California Cream Butter Lettuce.

"For modes of faith let graceless zealots fight, His can't be wrong whose life is in the right."

Don't Plant Tobacco.

Don't ask for Tobacco Seed. I cannot sell it. It only injures people. It debases their minds—defiles their bodies, and wastes their money. Don't help along the miserable business. Plant something useful and you will sleep better.

A Wonder Among Cucumbers.

Extra Long Green Giant Cucumber.

A veritable giant among Cucumbers, and merits the highest praise. Enormously large and handsome, many specimens growing from 20 to 30 inches in length. It is a very strong grower, fruit straight, smooth, uniform, and produced in great abundance. It has few seeds, (not one-fourth as many as other sorts) quality excellent, crisp and tender. A very fine pickling variety, and unexcelled for slicing. Every one should grow this remarkable novelty. No variety will equal it for exhibition. It will be a wonder to yourself and all beholders.

"The Green Giant Cucumbers were splendid. My neighbors were astonished at their great length. One measured 23 inches." Lulu Williams, Westville, I. T.

"The Long Green Giant Cucumbers were grand, and of immense size. They were the wonder of the community. 7 left for seed were all over 18 inches in length. Your Short Stem Drumhead Cabbage, Powells Beans and Coffee Berries were worthy of especial praise." Mrs Emma Willhede, Lantz, Md.

"Better to pick a small bouquet,
And give to your friend this very day,
Than a bushel of roses white and red,
To put on his coffin when he is dead."

HOW A HOME GARDEN PAID \$33.27. WHY NOT DO LIKEWISE?

"We live near a small village where but two families do not raise vegetables—yet we sold during the year \$37.77 worth. Our seeds cost \$4.50, leaving a clear cash profit of \$33.27. Besides we estimate we used fully \$100.00 worth for our own table—giving us better health, and saving much on meat, canned goods, grocery and doctor bills.

To do this we gave good care, planned to have vegetables both earlier and later than other people, and everything offered was washed and made attractive. Others could even do as well. Our garden is the best, and most profitable part of the farm." Clara S. Everts, Miss.

Protect The Birds.

Protect the Birds. Encourage them in every way. They are the Farmer's and Gardener's best friends. They work for us, and sing for us from morning till night. They are God's own messengers of love. They fill our homes, our meadows, and the woods with Heavenly music. Do all you can to encourage them by precept and example. Put up houses for the wrens and blue birds. It will pay. Feed the birds in winter. I feed them every day, and they come from far and near. It is a delight to see them. I am sure no Lady customer of mine will be guilty of the cruelty of wearing birds on their hats, and I earnestly pray that each one will do their utmost to convert others from this barbarous practice. A. T. Cook.

EXTRA PROLIFIC POP CORN.

This remarkable new variety is the most astonishing yielder ever found among Pop Corn. Its enormous yields seem almost fabulous, for it produces 4 to 12 good ears on every stalk. Pops well soon as cured. Ears are 6 to 8 inches long, filled with light colored grains—very handsome. Stalks grow 6 feet high. Prof. With-

erell of Davenport, Iowa says "I selected 10 stalks on my farm with 121 ears, or an average of 12 ears to the stalk; one stalk had 19 ears." Was such a yield ever before heard of? Its popping qualities are remarkable, very large, and delicious flavor; 3 pints will make 1 bushel popped. You can raise 100 bushels of ears on an acre. Be sure and include this Pop Corn in your order. Pop Corn is a great money crop. Choice seed, genuine, packet 10 cts., 3 for 25 cts.

New Stringless Green Pod Bush Bean.

This is an ideal string bean. Absolutely unrivalled. For home use or market no other green podded bean can equal it. It combines the chief merits of all others; extreme earliness, unusual hardness and wonderful productiveness. Pods are very handsome and finest quality—the flavor being most delicious. It is so hardy it withstands considerable frost. Pods are rich green, round, straight, 6 inches long, of unsurpassed tenderness and quality. Always entirely stringless and without exception the very earliest of all beans. Packet 10 cts., 3 for 25c.

MONEY IN POP CORN CROWING.

I PLANT
POP CORN
AND MAKE
BIG MONEY
SO CAN YOU.

Pop corn is a great money crop. Give your Boys and Girls a chance to grow a lot and make money. It will pay in more ways than one. If well cared for and soil is good, 100 bushels of my productive varieties will easily grow on one acre.

Almost the first money I made when a boy was in growing and selling Pop Corn. My varieties being so easily grown and produce such immense crops makes them especially profitable for market. They always bring good prices. This is well worth looking after. If you have no boys or girls plant a patch yourself and report result.

S. G. CAMPBELL, Tappan, O., writes: Mr. A. T. Cook.—Last Spring I got three packets of Pop Corn from you, and I raised 31-2 bushels, sold 21-2 bushels for \$3.75 have 1-2 bu. to sell yet, and enough left for winter.

W. L. ANDERSON, Ind., says:—Last year I planted 1-4 acre of Pop Corn and husked 36 bushels, a yield of 144 bushels per acre. I sold it for \$1.00 per bushel. The corn required no more labor than common field corn.

Colorado Preserving Citron.

This is quite distinct and far superior to the ordinary citron, the seeds being a light green color. It is immensely productive; one vine produced 25 fine melons, weighing from 10 to 30 lbs. each. The flesh is very firm and solid with few seeds, and makes beautiful, clear transparent preserves of surpassingly fine flavor. All should plant this citron for market and home use. It is a grand seller and will make you money. Pkt 5 cts.

Early Snowball Cauliflower.

The earliest, the surest header, the best and most profitable of all cauliflowers. No other variety compare with it. Snowball cauliflower is the standard everywhere for superb quality with all market and private gardeners. It is a very compact grower, and is absolutely certain to form a good sized head when the conditions are right; is good the entire season, and is rapidly driving out the late sorts for fall use. Cauliflowers are easily raised, and every family should grow a supply.

My seed is American grown and very choice. Packet 15 cts. 2 for 25 cts. 8 for \$1.00.

WHITE CHINESE WINTER RADISH.

A magnificent, new Celestial variety, of enormous size and exquisite flavor. By far the best and most tender for late fall and winter use. The flesh is always crisp, mild and juicy—very refreshing. These giant Radishes grow from 10 to 15 inches long and 4 to 5 inches in diameter.

The skin pure paper-white—very handsome. Flesh always crisp, mild and juicy. Easily grown and an immense yielder. Winter Radishes deserve more attention. They are a great luxury in winter, and always sell at good prices.

Plant about July 1st, and pull late, and store in a cellar in boxes of moist earth.

Large Pkt. 10 cts. 3 for 25 cts.

New Palmetto Asparagus—True Stock.

DECIDEDLY THE BEST IN THE WORLD.

This new variety is the finest ever cultivated. After years of trial in all sections, it is pronounced by all to be far in advance of all others, being much earlier—far better flavored and double the size. Indeed this variety is so superior that gardeners are plowing out their old sorts and planting with Palmetto. It is remarkably tender, rich and buttery when cooked. No other can compare.

Every family should have a supply of this very healthful and delicious vegetable.

My seed is pure and true. If well cared for will produce larger and finer asparagus in TWO years than other varieties at five. Beware of spurious seed.

Don't go to the expense and bother of buying plants when you can get such a quick and easy grower as this.

Large packet with full cultural directions, 10 cts. 3 for 25 cts. 12 for \$1.00. 12 packets will produce \$20.00 to \$30.00 worth of plants. Both Asparagus and Asp. Plants are SURE money makers, and sell quickly at big prices. Plant a lot of it for few things pay better.

From the Editor of American Garden. TRULY A GIANT AS PARAGUS. A bunch of about 50 shoots of Palmetto Asparagus exhibited by a Phila. Gardener, beats anything ever heard of. It weighed 31 lbs.—the growth of only 8 days.

A. Winship, Hillsboro Co., N. H. writes:—Your Palmetto Asparagus and Pop Corn are both truly wonderful. I have planted your seeds seven years and find them the best of all. Your packets are twice as large as any other, and you always send so many extras.

MY "MUTUAL HELP" POLICY. My Business has grown with marvelous rapidity almost wholly by the kind words and influence of pleased customers. Only "Gilt Edge Seeds" and liberal dealing could bring this happy result. Customers tell their friends and neighbors of my matchless bargains, and hand out my catalogs and circulars with a kind word—and this helps much. They know that better seeds cannot be found at any price, and few are as good. They know too, that I am the one Seedsmen who **ALWAYS** gives customers in Premiums, Discounts, and Extras, what others pay for extravagant advertising. Why not help each other?

**FROM PROF. C. C. CAINES,-- PRESIDENT
of the World Renowned
Eastman National Business College.**

POUGHKEEPSIE, N. Y. May 27 1908

Mr. A. T. Cook, Dear Sir:—I write to acknowledge the receipt of your Post Cards. These are all very attractive, and I want to congratulate you on the work you are doing in the interest of a good cause.

When a man puts a thing of this kind in his life he always takes strong hold on immortality. He entitles himself in some measure to a place in "the choir invisible of those immortal dead who live again in minds made better by their presence." In looking over your cards I had distinctly the feeling that I would like to do some good in the same way, and may yet find occasion to work out something in imitation of your good example.

With sincere good wishes,

Very truly yours, C. C. CAINES.

White Plume, Self Blanching Celery.

THE EARLIEST VARIETY.

This is the best of the so called Self Blanching varieties, as it needs but little banking up. Its eating qualities are equal to the best of the older sorts being tender and crisp, solid, and of a pleasing nutty flavor, while its white feather-like foliage places it ahead of all others as a table ornament. More largely grown than any other. If any have failed to grow fine celery, they should try this. Pkt. 10 cts.

EXTRA EARLY SUGAR WATERMELON.

This remarkable new variety is not only the earliest of all—but will continue to bear abundantly the entire

season. The quality is superb—every melon a good one. Will succeed and produce fine melons in every state—even in Canada. Packet 5 cts. 6 for 25c.

EVERY BOY in the U. S. should have a melon patch, and raise hundreds of big, sweet melons.

Healthful, Delicious, Asparagus.

Don't miss having an Asparagus bed. The True Palmetto is incomparably better than other sorts. It is earlier, double the size, finer quality, and a much stronger and healthy grower. Plant no other even as a gift. Asparagus is ALWAYS a big money crop. It is extremely healthful, and will do you more good than all the quack medicine and drugs ever made. A well made bed will give you an abundance for a lifetime, and will be worth a hundred times the cost. Don't put it off. Plant a lot of seed. You can sell your surplus plants to your nabors at an immense profit.

Annual Chrysanthemums.

These glorious, showy, flowers grow readily from the seed, and flower freely during summer and fall months. They are very pretty and effective—and very fine for cutting. Foliage is rich dark green, finely cut and ornamental.

I offer the finest selected mixed varieties—a full assortment of both double and single, in richest colors of crimson, golden yellow, striped, mottled, etc., etc. They will be a surprise to flower lovers everywhere. Pkt. 5c. 6 for 25c.

I want Club Agents everywhere for Flower Seeds. See Prem. offers elsewhere.

"There's not a tint that paints the rose,
Or decks the lily fair,
Or streaks the humblest flower that grows,
But God has placed it there."

Early Premium Gem Peas.

A superb extra early wrinkled variety of delicious quality. Pods large, long, well filled, and vines marvelously productive, being loaded down with luscious peas. The best, the sweetest, and hardiest of all. Pkt. 10c. 3 for 25c.

New Chartier Radish.

This valuable introduction is far superior to most long varieties. Extra quality and flavor. Early, handsome, unusually crisp, tender, and juicy; and remains in good condition a long time. Pkt. 5 cts. 6 for 25c.

G. E. Russell, Leon Co. Fla. writes:—I raised one of your Chartier Radishes 2 ft. 9 in. long, and 1 1/2 in. around. I never saw the best. Your Short Stem Cabbage cannot be excelled. I can say your seeds GROW, and you give more and better seeds for the money than can be had elsewhere.

I WANT every Club Agent far and near—every Agent for anything, anywhere—every Lady who wants plenty of pin money—every bright Boy and Girl who wants valuable Premis.—I want each and every one of them to know that my Seeds, Cinnamon Vines and Potatoes sell twice as fast as anything else—that my Premium offers and cash discounts BEAT THE WORLD—and that never before was there such an easy way of making a lot of money, or securing valuable Premiums free.

Giant Summer Crookneck Squash.

This new strain is even earlier than the common variety, while the squashes grow to an extra large size—from 18 inches to two feet long, and of finest quality.

They command an extra price in all markets. One grower reports \$125 worth sold from ¼ acre. This is the best flavored

and finest of all summer squashes. Per packet 5 cts.

Strawberry Husk-Tomato.

TRUE HEADQUARTERS SEED.

These unique tomatoes are a wonderful fine fruit, and grow from the seed in 80 days. They are simply superb for canning, preserving and pies; everyone calling them most delicious. If left in their husks, and stored in a cool, dry place they

Keep Fresh All Winter.

Dried in sugar as raisins or figs, and to use in fruit cake etc., they are unexcelled. They are a handsome golden color,—the size of large cherries, and enormously productive. They have an exquisite flavor. Many say

"Better Than Strawberries"

to eat out of hand. No one ever gets tired of them. They are hardy everywhere, and produce enormous crops even where other fruit is a failure. Packet with full directions for planting, use of fruit etc., only 10 cts. 3 for 25 cts.

EARLY WINNICSTADT CABBAGE.

A well known and very popular variety, heads large, decidedly conical, remarkably solid and hard, even in summer. This is a sure header, a good shipper, and suffers less from the cabbage worm than any other sort; valuable for both summer or winter use. Market Gardeners and all others desiring a choice strain of this desirable cabbage should try my selected seed.

Beware of cheap Cabbage seed, which is often grown from stumps and unsalable rubbish. Pkt. 5 cts.

"I raised a garden full of Cabbages from your seed last year. They were the finest cabbage I ever saw. My nabors failed to raise any at all, and I told them they should have planted Cook's selected seeds."

P. R. Hurn, Wash Co., Ark.

The Great Prize Pumpkin

KING OF THE MAMMOTHS.

This grand, colossal variety is without a rival. It astonishes everybody by its mammoth size and heavy weight. Indeed no other pumpkin has ever attained

"Jumbo of All."

such enormous weights, or been awarded as many prizes. Think of it, a single pumpkin weighing 298 lbs. (See Cut.) Is not this the greatest of all pumpkins? In France they have been grown to still greater size, and as many of my customers have as good, rich soil—as highly productive, as any there is in France or anywhere else on the face of the earth, I see no reason why they cannot be grown much larger here. The flesh and skin of this monstrous pumpkin is a bright golden color, very fine grained, and of excellent quality. Notwithstanding its enormous size, it is one of the best pie or table pumpkins ever grown, and is a splendid keeper. I hope all enterprising pumpkin growers will give this variety a trial. You will be sure of a prize at your County Fair. Full directions on every packet, giving best methods of planting etc. to secure the largest specimens. See offer below. Extra seed saved from selected LARGE pumpkins.

Packet 10 cts. 3 for 25 cts.

EVERY PERSON who receives this Catalog should surely take advantage of the marvellous opportunities for making money, or securing valuable Premiums free of cost. Please tell your Club-Agent friends, and bright Boys and Girls—of my matchless inducements for orders.

There is no unbelier,
Whoever plants a seed beneath the sod
And waits to see it push away the clod
He trusts in God."

MY SUPERIOR SEED is the very best I can grow or get. None are cheaper QUALITY considered. I do not try to compete with foreign trash, or that grown from scallions and refuse of crops. I could sell such for 2 cts. per packet—but they would be dear as a gift. With an experience of 25 years in gardening I know the value of high grade seeds. I have in the past, do now, and always will maintain this high standard.

TRUE CHICAGO PICKLE CUCUMBER.

This has become a standard variety, and is undoubtedly the best Cucumber for pickles, and is used almost exclusively by the most progressive pickle factories. The fruit is of medium length, pointed at both ends;

color deep green; begins to set its fruit when the vines are quite young. It is a continuous bearer, and its productive qualities simply marvelous. I have a very choice strain of seed. Packet 5 cts. 6 for 25 cts.

NEW EXTRA EARLY BEET.

I am glad to offer this new variety as one of almost inestimable value. How many of my Gardener friends

believe that there is any where in existence, a nice, smooth, garden beet of deep red color, which will produce roots of suitable size for market 10 DAYS in advance of the old early sorts?

Well friends this variety does that very thing; I was incredulous until I planted the seeds and tested them side by side, and watching their growth saw a finely formed root develop on every plant of this new variety before other early kinds began to bottom.

The flesh is delicate, rich, and sugary; very fine grained. It is in every way an ideal table Beet. Young plants make splendid greens.

Pkt. 10c. 3 for 25c.

One Woman's Money-Making Garden.

Thousands Can do as Well—and Better.

From a plot only 30 by 50 feet, I took in \$24.00 for early Lettuce, \$10.00 for Beets, \$10.00 for early Celery and have fully \$10.00 worth of late Celery still growing—making over \$50.00 clear money from this little piece. On another piece I grew early Peas, Sweet Corn, and Beans, all big "money-makers." Others can do likewise and have "Pin Money" in plenty.

Marie T. Lundale, Pa.

EXTRA DOUBLE CURLED PARSLEY.

Parsley is a flavoring herb of highest culinary value. This superior variety has beautiful, mossy, curled and crimped leaves, light brilliant shade of green, of extra fine quality. No one planting it once would ever be without it.

The Leaves can be dried for winter use—or take up a few plants and store in the cellar in moist earth.

Packet 5 cts. 6 for 25 cts.

MAMMOTH MELTING SUGAR PEAS — Most Delicious of All.

Rightly named. The sweet, brittle, succulent pods are cooked same as string or snap beans—pods and peas eaten together. A "dish fit for a King." Excels all other Sugar Peas in size, tenderness and sweetness of pods, and delicious flavor. These luscious peas are too little known. Every one should grow them.

Deliciously Rich, Tender, Prodigiously Prolific.

They contain so much sugar, starch, and gluten, making them most nutritious. Height of vines 4 to 5 feet, bearing their immense pods in the greatest profusion. Every garden should have a liberal supply of this superior vegetable. Peas are very scarce this year, but I have a splendid stock, as well as of all other seeds. Remember I send **EVERYTHING** PREPAID and guarantee safe arrival.

Per Packet 10 cts., 3 for 25 cts.,

"I can desire nothing better for this great country than that a barrier, high as Heaven, should be raised between the unpolluted lips of the children and the intoxicating cup." John B. Gough.

NEW EARLY WHITE VELVET OKRA.

Okra is a fashionable Southern vegetable, of the easiest growth, and matures first season even in the extreme north. Pods are used when young and tender, are excellent for soups, stews, etc., and really delicious when pickled.

The White Velvet is best of all Okras, very early and distinct. The pods are round, smooth, and handsome; much larger than any other

and of superior flavor and tenderness. Very prolific. Why not try Okra this year? You will surely like this splendid new variety. It is one of the good things no one should do without. Packet 5 cts.

NEW EARLY TREE TOMATO.

I think this more nearly resembles a tree than any other. It stands up like a tree, with a stiff, vigorous upright stalk—with fruit well up above the ground. Bears very abundant, fruit good size, smooth, bright red color, and of superior flavor. A valuable, curious acquisition very ornamental and useful. I am sure all will be pleased with it. Pkt. 10c 3 for 25c.

YOU CANNOT do me a greater favor than to show my Catalog to your friends, and allow them to use it for sending their orders, and getting up Clubs.

NEW CHINESE GIANT PEPPER.

The Chinese Giant is by all odds the largest and finest of Peppers. It is the grandest sort for salads—stuffed for mangoes—or sliced and served like tomatoes. For market are twice as profitable as any other, as they bring such fancy prices. Plants are stocky habit, about 2 feet high, and loaded with enormous fruits. 22 of these gigantic Peppers have been counted on a single plant. They are very mild, sweet as an apple and ripen early. Every one will want to plant it I am certain.

READ THE FOLLOWING FROM THE
EDITOR OF THE RURAL NEW YORKER
TO WHOM A FEW SEEDS WERE SENT FOR TRIAL.

"We grew the Chinese Giant Pepper with much pleasure, and found them veritable monsters. Their highly colored fruit is a pleasant addition to summer salads. The flesh is thick, tender, and sweet, without any burning taste. The plants grew finely, and the immense peppers—often more than 6 inches in diameter and depth make a very handsome show in the garden. The Chinese Giant is earlier than the Ruby King."

True Ice Plant.

(MESEMBRYANTHEMUM CRYSTALLINUM.)

A handsome and unique annual plant, for hanging baskets, rock-work, vases, and house plants; also fine for beds, edgings, etc. The leaves and stems are almost transparent, appear as though covered with icy crystals that look peculiarly brilliant and glistening in the sunlight. It is a plant of the easiest culture and that is always admired. It should be in every flower garden. The flowers are white.

Cut shows the attractive appearance of Ice Plant in Pot Culture. Packet 5 cents.

"I would not take \$1.00 for my Ice Plant. I esteem it above all my other flowers. All your seeds gave entire satisfaction."

E. J. Colston, Social Circle, Ga.
 From Irene Dean in "Epitomist." Oh, what beauties my Ice Plants were. They were entirely covered with "icy" crystals. I set one in a 3 inch can; it grew as large as a big tin pail. Every one that saw it was astonished. The flowers are very beautiful.

VERBENAS,—Superfine Mixture.

Very few plants make such a gorgeous display during the season as the Verbenas, or furnish more flowers for cutting. Unrivalled as a constant bloomer, brilliancy of flower, and sweet fragrance. They grow from seed the first season. For profusion of bloom—large blossoms, and variety of colors—my selected mixture cannot be excelled. I wish every one to grow these lovely flowers.

LONG STANDING SPINACH.

Spinach is a delicious vegetable either for spring or fall sowing.

This variety is the gardeners favorite; it is a most attractive color with thick fleshy leaves of fine texture. Extremely hardy, and stands longest of all before going to seed.

Packet 5 cents.

COOK'S PERFECTION PARSNIP.

Rightly named, and without doubt the finest strain of Parsnip that can be produced. It is a wonderful improvement on the old sorts, and no one desiring the best should fail to grow it. The roots are very smooth and handsome; tender, sugary, fine-grained and of most excellent quality. Customers are unanimous in praising it.

This is truly a delicious vegetable, very fine stewed, fried, boiled, etc. All who do not like the old poorer sorts are recommended to try this.

It produces enormous crops; and the short, thick roots are easily gathered. It is without question the best for home use, market, or exhibition purposes.

While this is essentially a table parsnip—it is also superior to all others for stock feeding owing to its great size and extraordinary sweetness.

Large packet, selected seed 10c. 5 for 25c.

"Your Perfection Parsnips were the best we ever had." Lester Thompson, White Bear, Minn.

"We grew the finest tomatoes, cabbage and parsnips from your seed we ever had in our life. We had Perfection Parsnips 3 1/2 to 4 lbs. each." Wm. H. Smith, Pa.

A distinct new cucumber from Japan. The vines are extra strong and vigorous, and great climbers—

producing a surprising amount of superior fruit on poles, fences, etc. Three times the usual crop from a given area can be grown with this variety. They are large size, nice green color, and fine for pickling and slicing. The vines and fruit being elevated do not suffer from wet weather and insects. It sets its fruit constantly throughout the season. I am sure all will be pleased with it. Pkt. 10c. 3 for 25c

"The Japanese Climbing Cucumbers are the greatest bearers ever was. We shall always grow them. Your other seeds are doing fine—very always p.o."

Mrs. Reed, Springfield, Mass.
 "My Japanese Cucumbers were a great surprise to all who saw them." Edna Caldwell, Butler, Texas.

LITTLE GEM SWEET ALYSSUM.

The Little Gem plants are very dwarf, and each one spreads so as to completely cover a circular space 12 to 16 inches in diameter. They soon become one mass of white, remaining in full bloom from spring to fall.

More than 400 clusters of flowers in full bloom have been counted on one plant. Little Gem is sweetest and best of all flowers for single specimens, borders, ribbons, etc., and might well have been called "Snow White Carpet Plant." Of the easiest culture. Do not forget this favorite, fragrant flower when you order. Very Choice Seed, only 5 cts. per pkt. 6 for 25 cts.

Be Sure and read the following from H. A. McQuiston, Pansy Specialist of Preble Co., O.

"Mr. A. T. Cook.—I have used the best Pansy Seed of many leading seedsmen, and yours clearly surpass them all in vigor of plants, size and number of blossoms, and great diversity of color. Everyone greets them with words of praise and astonishment. It is no trouble to sell plants from your seeds—they sell themselves."

From Miss Mary Nesbit, Pa. "I had the loveliest of flower beds from your seed, and lots of people walked two miles to get a bouquet. Many city boarders came and purchased flowers. The Sweet Peas, Sweet Williams, and Verbenas were especially beautiful. I cannot thank you enough for the extras. My Aunt said, 'I have seen people get extras, but I never saw the like of this man before.'"

SPECIAL TO PARENTS. Get your girl or boy interested in this valuable Watch Premium. Help them to select and order \$3.00 worth of my Seeds, Cinnamon Vines, or Post Cards, and then start them out selling them. When they are sold—hand them the Premium Watch. The business lessons they will thus learn will be priceless. No schooling can equal it. The watch they will prize all the more for having fairly earned it. This suggestion is

too valuable to be overlooked by any parent who regards the welfare of his child. I want to give away 10,000 of these excellent watches this year—knowing they will be a tremendous advertisement for my superior seeds.

Special Request.

As I have greatly reduced size of order necessary to get the above beautiful watch—I request that you show this big offer to your lady and girl friends, that they may order seeds—or get up clubs and secure one. It can be obtained so easily—no one should be without this valuable timekeeper.

Remember I always give my customers and Club Agents what others pay for fancy catalogs and extravagant advertising.

Make Your Home Beautiful

BY GROWING Flowers and Vines. Believe me when I tell you that nothing in the world will pay you better. The Cinnamon Vine—from China the land of wonders—is delightfully fragrant as well as beautiful, and you know "a thing of beauty is a joy forever." Your window, porch, arbor and walk will all be incomplete without this incomparable climber. I am selling 10 times as many as I did a few years ago.

FOR ONLY \$3.00 I will send you 60 strong selected, two year old tubers, with Colored Plate and lots of circulars to hand around among your friends—and give you Free as a Premium, a beautiful Watch, Seed Drill, Scope and 25 Views—or any \$3.00 Premium offered. All sent prepaid. You surely never had such a bargain. Order at once—no trouble to keep tubers.

To Club Agents I can truly say that selling Cinnamon Vines is pleasant and IMMENSELY PROFITABLE as hundreds of my happy workers can testify.

Durable, and Always Ready to Use.

Don't try to get along without this splendid Drill to sow your garden and hot beds. It will make your garden smile. It sows the smallest packet as well as larger bulk. It has the FORCE FEED, always sowing even and good as work done by the most costly machines.

A Most Amazing Bargain for You.

By placing a very large order for these Drills in the summer when the factory was dull—and paying cash—I am pleased to tell you I have such a bargain I can give one absolutely Free as a premium for a \$3.00 order for anything in this catalog. You never saw such a bargain. Not a single customer should miss it. Remember I send everything fully prepaid by mail. Full Directions accompany every Drill.

THE GREAT DANISH BALL HEAD CABBAGE.

The Grandest and Hardest of All Danish Cabbages.

EVERY GARDEN should contain this remarkable Cabbage. It is the result of over 50 years careful selection by the expert Danish Gardeners. Its fame has become world-wide, and to-day it stands without a peer in surest growing, hardest heading and longest keeping qualities. It is the highest bred of all winter cabbages and is rapidly surpassing other sorts. It grows well on all soils. Quality the very highest, fine-grained, tender and crisp. It is very distinct—round as a ball and of surprising solidity. Altho of very large size, it is so compact it can be planted closely. Its keeping qualities are truly wonderful. No other can compare with it at all.

I offer the highest strain—extra selected seed pure and true, for only 10 cts. a Pkt. 3 for 25c.

ENCOURAGE YOUR BOYS

AND GIRLS to grow fine Vegetables—and Veg. Plants, and sell them to their neighbors and villagers and earn good money. It will pay. Try it this year.

By all means give them a nice Pop Corn patch—and a big Melon patch. My hardy, early melons succeed every where and you can all have an abundance of these great luxuries with very little trouble.

My Seeds Please the Critical "Crangers."

Dear Mr. COOK, I enclose order for \$3.75 for more of your valuable Seeds. All the Crangers to whom I sold last year were perfectly satisfied and called them extra good. I hope to largely increase my order this year. Wishing you much success in your Seed Business—and a glorious future in your grand Temperance Work. I remain Your Sincerely, Alfred Leith, Pleasant Valley, N. Y. Proprietor of Stock, Dairy and Poultry Farm.

PARADISE GEM MUSKMELON.

Earliest and Best of All Melons.

These New extra early—enormously productive small Muskmelons have the heaviest, thickest, and sweetest flesh of all. Wherever grown have won over all competitors. Weeks earlier than other melons, tremendous yielders—10 to 20 melons on a plant, blight and rust resisting, deliciously sweet and spicy and high bred at every point.

No melons ever grown can compare with the Paradise Gem. These melons sell everywhere at fanciest prices. It is hard to supply the demand. Plant liberally, and enjoy this great luxury for months every year. They grow and produce bountifully—even where other melons cannot be grown. Extra Selected Seed, 10c. per Pkt. 3 for 25c. 12 for \$1.00.

Views Lovely, and Curtains Beauties.

Mr. A. T. Cook. The Seeds and Premiums arrived in perfect condition. Every one was pleased. My Stereoscope Views were just lovely—and the Window Curtains real beauties. I certainly was surprised to receive such valuable Premiums, and I thank you heartily for them. Your Friend, Mary Vaughan, Johnson Co. Ark.
